

KELLY
CHIEF ACTIVITY DIRECTOR
NARRATOR OF THE FASSA TAILS

Kelly is a stay-at-home mom of three wonderful children who never cease to amaze her! As the middle child of four, she has always worked very hard to prove herself in unique ways. Kelly is an adventure seeker who has no fear of the unknown and craves the excitement of new challenges. She firmly believes there should never be a dull moment in your life because life is truly too short. She lives by the motto "Have no regrets." Her two favorite things are hearing children laugh and watching the sunset – if she could see or hear those two things every day, she'd be completely happy.

Kelly has been with Planet Fassa since the very beginning when the idea was just a dream. She is passionate about this company, and feels that within Planet Fassa, she has found her true calling. Kelly is the official Nugget writer and the voice behind the books. She loves that she gets to use her creativity and imagination to write the Nuggets, and take other people with her on adventures.

She received her Masters of Arts in Teaching from National Louis University, and taught Elementary Education. Kelly's undergraduate degree is in Biology and Psychology from Augustana College. All of her education has been focused on the well-being of people, especially children. She is an avid learner, and loves to share what she's learned with others.

In her personal time, she can be found spending time with family and friends, and doing volunteer work with the Junior League of Kane and DuPage counties. Kelly works hard to teach her kids how to be great humanitarians and to care about the people and the world we live in. She also feels strongly about limiting children's time in front of the television and encouraging them to use their imagination to create things to do; she has worked hard to raise her kids in this way and was raised this way herself.
